Appendix B (Burglary Graph)……...7 & 8

Appendix C (Criminal Mischief Graph)……9 & 10

Appendix D (Larceny Graph) …….11 & 12

Crime Analysis

A set of systematic, analytical processes directed at providing timely and pertinent information relative to crime patterns and trend correlations to assist the operational and administrative personnel in planning the deployment of resources for the prevention and suppression of criminal activities, aiding the investigative process, and increasing apprehensions and the clearance of cases. Within this context, Crime Analysis supports a number of department functions including patrol deployment, special operations, and tactical units, investigations, planning and research, crime prevention, and administrative services (budgeting and program planning). --Steven Gottlieb et al., 1994, "Crime Analysis: From First Report To Final Arrest."

TO: *Office of the Chief*

FROM: *Det. Sgt. John Dunn*

SUBJECT: *Crime Analysis Report July 2008*

During the month of July 2008. The Guilford Police Department had the following ***Part 1*** *and selected* ***Part 2*** *Crimes reported: Reference Appendix A for further information.*

Burglary Cases

There were a total of five (6) burglaries reported during this period. All were residential Of these six burglaries a total of one (1) was solved. The case that was solved involved a homeless person sleeping in a residence believing he had permission from the previous owners of the property. At the complainants request no arrest was made. The remaining (5) cases are still being investigated with several having items analyzed at the DPS Forensic Lab. None of the cases showed a distinct pattern, further more no modes operandi was found. *Reference Appendix B for a graph representation.*

Criminal Mischief Cases:

Twenty-Two (22) criminal mischief cases were filed; Thirteen were private property, three were mailbox damage, and six were public property. Three cases were solved with the cases being handled between the complainants and the subjects. No similarities in cases were found. There was no distinct patterns or modes operandi (MO) in any of these cases. *Reference Appendix C for a graph representation.*

Larceny Cases:

Thirty-Sixty (36) larceny complaints were filed. A detailed examination of these cases revealed the following details: Of the thirty-six cases, a total of thirteen larceny cases were solved. With ten cases resulting in arrests. The remaining solved cases were handled between the complainant and the subjects. A total breakdown of the types of larceny cases are a follows: (7) shoplifting cases. (4) thefts from autos, (1) bicycle theft, (5) thefts from buildings, and (16) general larceny cases. No patterns or modes operandi was found. *Reference Appendix D for a graph representation.*
