Crime Analysis

A set of systematic, analytical processes directed at providing timely and pertinent information relative to crime patterns and trend correlations to assist the operational and administrative personnel in planning the deployment of resources for the prevention and suppression of criminal activities, aiding the investigative process, and increasing apprehensions and the clearance of cases. Within this context, Crime Analysis supports a number of department functions including patrol deployment, special operations, and tactical units, investigations, planning and research, crime prevention, and administrative services (budgeting and program planning). --Steven Gottlieb et al., 1994, "Crime Analysis: From First Report To Final Arrest."

TO: Office of the Chief

FROM: Det. Sgt. John Dunn

SUBJECT: Crime Analysis Report October 2008

*During the month of October 2008. The Guilford Police Department had the following **Part 1** and selected **Part 2** Crimes reported: Reference Appendix A for further information.*

Burglary Cases

There were a total of four (4) burglaries reported during this period. All properties were residential. Two were forced. Two of these cases were solved both resulted in arrests. One of the solved cases resulted in multiple suspects being arrested. Two of the cases did show distinct pattern, as well as a modes operandi. *Reference Appendix B for a graph representation.*

Criminal Mischief Cases:

Thirty-One (31) criminal mischief cases were filed; ten were public property, two were mailbox damage, sixteen were private property, and three were windows. Four cases were solved. Thirteen of these cases showed a distinct pattern. Of these thirteen cases all occurred during the 24 hour period around Halloween and “Mischief Night” Most of the damage was not permanent in nature. There were no arrests. *Reference Appendix D for a graph representation.*

Larceny Cases:

Thirty Nine (39) larceny complaints were filed. A detailed examination of these cases revealed the following details: Of the thirty-nine cases, a total of ten (10) cases were solved. All resulting in arrests. A total breakdown of the types of larceny cases are as follows: (2) shoplifting cases, (12) thefts from autos, (5) thefts from buildings, and (20) general larceny cases. A distinct pattern of location thefts has been identified in the GHS thefts. *Reference Appendix C for a graph representation.*

Robbery Cases:

None reported

Murder Cases:

None reported

Rape Cases:

In accordance with Connecticut General Statutes details of all sexual assault cases details remain sealed.

Arson Cases:

None reported

Information and Intelligence received on criminal activity:

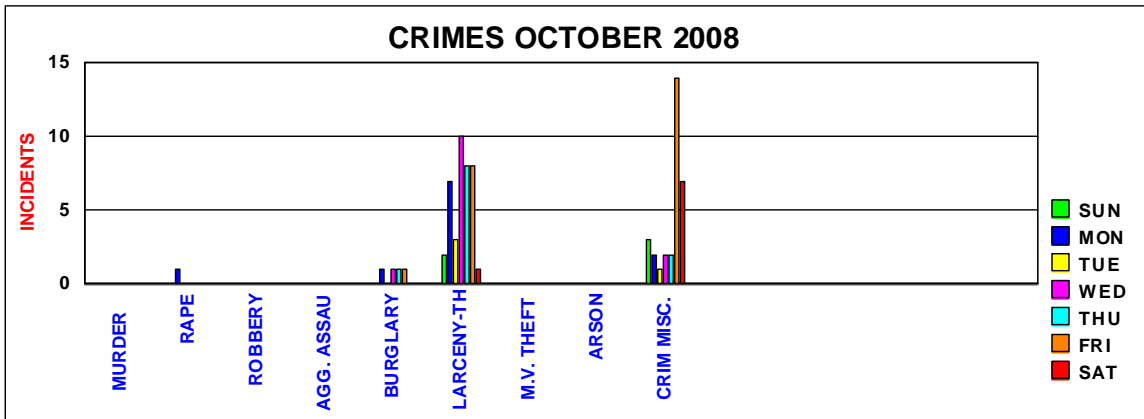

CTIC provided LEO intelligence during this month. A marked increase in residential burglaries was reported by Troop F of the Connecticut State Police during the latter part of this month. No suspect information was available, however a distinct pattern was noted by the troopers. Officers were briefed on this information.

Sincerely,

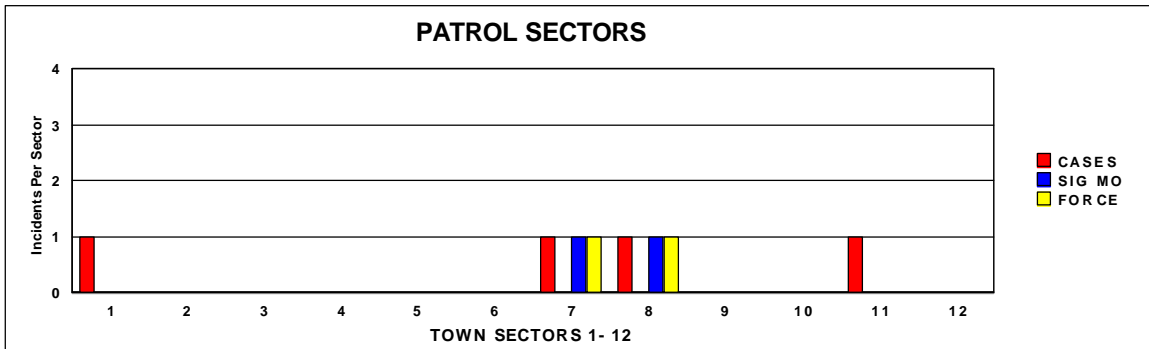

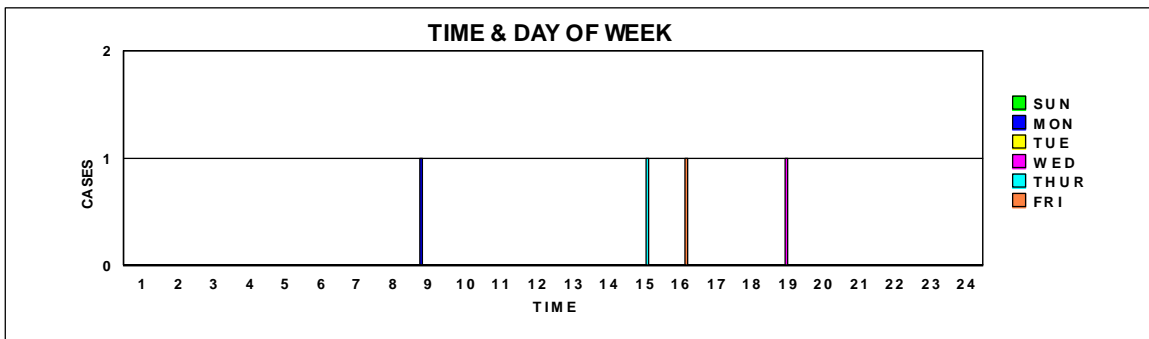

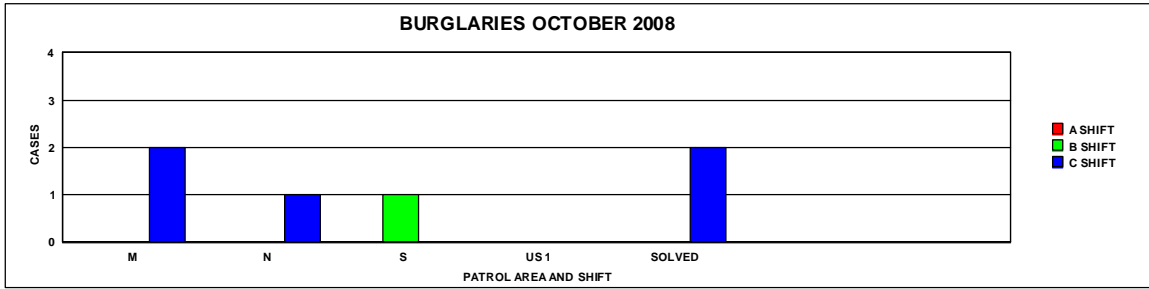

*Det. Sgt. John Dunn #64
Detective Unit Supervisor*
