Crime Analysis

A set of systematic, analytical processes directed at providing timely and pertinent information relative to crime patterns and trend correlations to assist the operational and administrative personnel in planning the deployment of resources for the prevention and suppression of criminal activities, aiding the investigative process, and increasing apprehensions and the clearance of cases. Within this context, Crime Analysis supports a number of department functions including patrol deployment, special operations, and tactical units, investigations, planning and research, crime prevention, and administrative services (budgeting and program planning). --Steven Gottlieb et al., 1994, "Crime Analysis: From First Report to Final Arrest."

TO: Office of the Chief

FROM: Det. Sgt. Kurt Fasulo #63

SUBJECT: Crime Analysis Report September 2017

During the month of September 2017, the Guilford Police Department had the following ***Part 1*** *and selected* ***Part 2*** *Crimes reported: Reference Appendix A for further information. This information was compiled via the NEXGEN system utilizing a query of all Part 1 Crimes and select Part 2 crimes from the computer database. A full review of each queried case file report was completed.*

The Guilford Police Department investigated **1039** cases for the month of September. This is a two percent (2%) increase in calls from August to September.

Burglary Cases

None reported. This is a one hundred percent (100%) decrease from August to September.

Criminal Mischief Cases:

There was a total of seven (7) criminal mischief cases filed for the month of September. This is a seventy-two (72%) percent decrease in criminal mischief cases from August to September. Two (2) of these cases were to public property, five (5) to private property.

The times and dates reported are depicted in the graphic representation, however these are mostly the time the report was filed and not the time at which the crime is being committed. Only one of the seven cases show an accurate representation of the time these crimes was committed. The others were reported after the damage was observed and the exact time and date of the occurrence is unknown.

Reference Appendix B for a graphic representation.

Larceny Cases:

There were twenty-eight (28) larceny cases reported during the month of September. Five (5) of the twenty-eight cases were solved. There were two (2) arrests made as a result of these larceny cases. The complainants did not wish to pursue charges in two (2) cases which were solved. The remaining case has an active arrest warrant for the suspect.

The larceny types are as follows: eleven (11) thefts from a motor vehicle, five (5) shopliftings, and twelve (12) general larcenies.

For nineteen (19) of these larceny cases the exact date and time that the larceny occurred has not been determined. Thus, the date and time shown reflects only that of the date/time reported.

The number of larceny cases increased three percent (3%) from August to September.

Reference Appendix C for a graphic representation.

Robbery Cases:

None reported.

Larceny of MV Cases:

None reported.

Aggravated Assault/Simple Assault:

None reported.

Arson Cases:

None reported.

Rape/Sex offense Cases:

There was one sexual assault reported during the month of September. The details of this incident are protected by Connecticut General Statute and the investigation has been completed.

Murder Cases:

None reported.

Information and Intelligence received on criminal activity:
CTIC provided LEO intelligence during this month. The New England State Police Information Network also served as a source of intelligence as did the Law Enforcement Information Exchange (LInX).

Intelligence meetings were held with the Middlesex County Detective Association, New Haven ISU, and New Haven MDT in regard to ongoing criminal activity in all attending agencies' jurisdictions. Guilford Police Department continues to work closely with the Madison Police Department in a joint effort to deter the burglary spree that both towns were experiencing and to coordinate investigative efforts. The Guilford Police

Department has also been working in conjunction with the DEA and DEA Taskforce for a Heroin/Opioid overdose death investigation.

Respectfully submitted,

Det. Sgt. Kurt Fasulo
