Crime Analysis

A set of systematic, analytical processes directed at providing timely and pertinent information relative to crime patterns and trend correlations to assist the operational and administrative personnel in planning the deployment of resources for the prevention and suppression of criminal activities, aiding the investigative process, and increasing apprehensions and the clearance of cases. Within this context, Crime Analysis supports a number of department functions including patrol deployment, special operations, and tactical units, investigations, planning and research, crime prevention, and administrative services (budgeting and program planning). --Steven Gottlieb et al., 1994, "Crime Analysis: From First Report to Final Arrest."

TO: Office of the Chief of Police

FROM: Det. Sgt. Kurt Fasulo #63

SUBJECT: Crime Analysis Report January 2020

*During the month of January 2020, the Guilford Police Department had the following **Part 1** and selected **Part 2** Crimes reported: Reference Appendix A for further information. This information was compiled via the NEXGEN system utilizing a query of all Part 1 Crimes and select Part 2 crimes from the computer database. A full review of each queried case file report was completed.*

The Guilford Police Department investigated 1093 cases for the month of January. This is a fourteen percent (14%) increase in calls from January 2019 (961).

Burglary Cases

There were two (2) reported burglaries during the month of January. Both burglaries were to the same commercial property. A significant modus operandi was identified as was a suspect for this incident. No response plan was developed as the suspect has been taken into custody by another agency.

The number of burglaries increased when compared to January 2019 (0).

Reference Appendix B for a graphic representation.

Criminal Mischief Cases:

There were three (3) criminal mischief cases filed for the month of January. This is a decrease in criminal mischief cases from January 2019 in which there were eleven (11). Two cases involved damage to private property and the remaining one to public property.

One reported incident reflects the time the report was filed and not the time at which the crime was committed. This was reported after the damage was observed and the exact time and date of the occurrence is unknown. A second graph showing the day and time of offense has been included in this report for the two incidents in which the time and date were known.

There were no arrests made for criminal mischief in the month of January. There were no patterns nor trends for these incidents and no response plan has been developed.

Reference Appendix C for a graphic representation.

Larceny Cases:

There were twenty-seven (27) larceny cases reported during the month of January. Three (3) of the twenty-seven cases were solved. There were three arrests made as a result of these larceny cases.

The larceny types are as follows: Four (4) shoplifting, fourteen (14) theft from motor vehicle, one (1) theft from residence, and eight (8) general larceny.

For nine (9) of these larceny cases the exact date and time that the larceny occurred has not been determined. Thus, the date and time shown in the related graph reflects only that of the date/time reported. A separate graph has been provided which depicts day and time the offense was completed, if known.

The number of larceny cases increased from January 2019 (18).

The fraud cases for the month of January are as follows: Eleven (11) General Fraud, Five (5) Fraud – Identity Theft, and one (1) Fraud with a Credit Card. These fraud incidents mostly were attempts to defraud victims of funds. In some cases, the involved complainants were reimbursed or did not experience any loss. In total there was \$16,995.95 in losses experienced from these incidents. There was an additional \$600.00 in attempted theft which was unsuccessful.

Reference Appendix D for a graphic representation.

Robbery Cases:

None reported.

Larceny of MV Cases:

There was one (1) larceny of motor vehicle case for the month of January. The case is still being investigated. There have been no trend factors identified to warrant development of a response plan. The vehicle has been recovered and returned to the owner.

Aggravated Assault/Simple Assault:

There was one reported assault for the month of January. The complainant did not wish to pursue criminal charges. There were no trend factors identified to initiate a response plan.

Arson Cases:

None reported.

Rape/Sex offense Cases:

There was one (1) reported sexual assault for the month of January. Per Connecticut General Statutes, the details of this case will remain confidential.

The number remained constant from 2019 (1).

Homicide Cases:

None reported.

Information and Intelligence received on criminal activity:

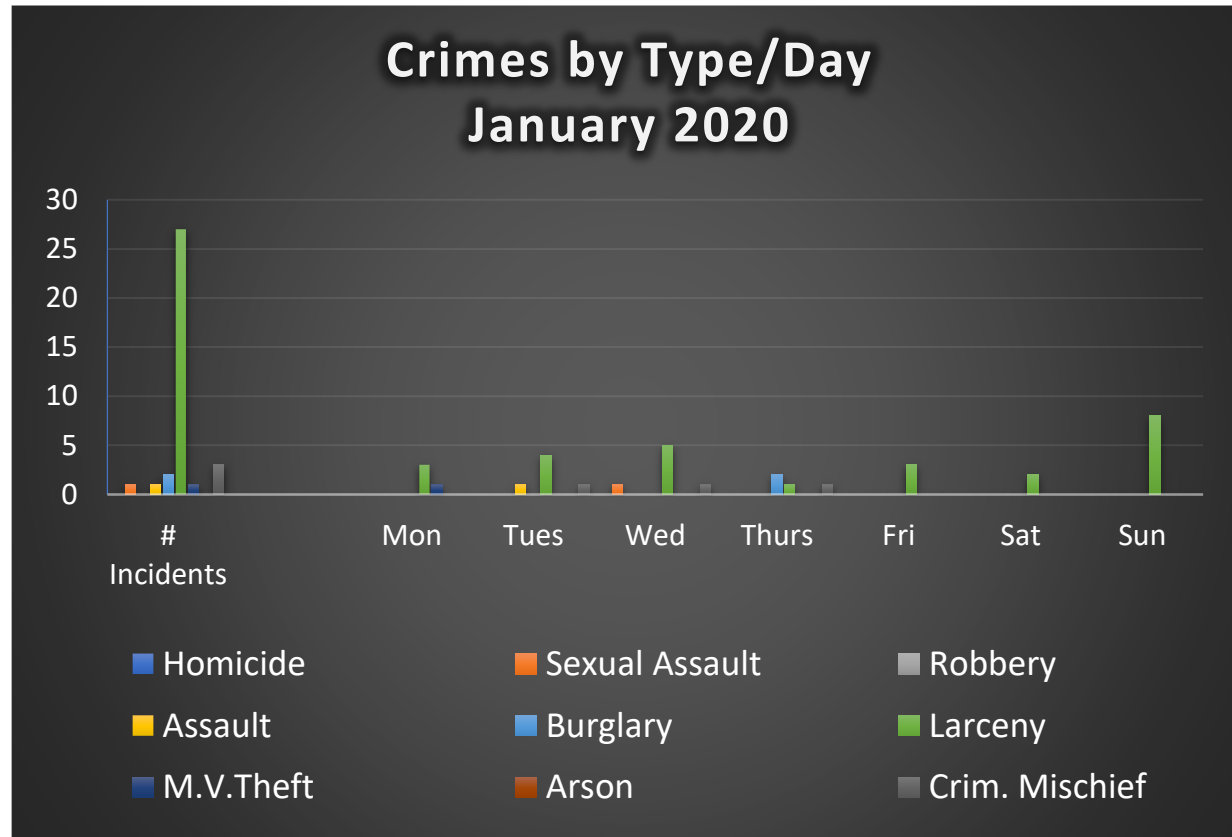

CTIC provided LEO intelligence during this month. The New England State Police Information Network also served as a source of intelligence as did the Law Enforcement Information Exchange (LInX). Guilford Police also monitors Crimedex Law Enforcement Portal for updated information on financial crime trends. Crime intelligence sharing is also monitored through New Haven Police Department's SLACK program.

Intelligence meetings were held with the Middlesex County Detective Association, United States Postal Inspectors, and New Haven MDT in regard to ongoing criminal activity in all attending agencies' jurisdictions.

Respectfully submitted,

Det. Sgt. Kurt Fasulo
