Crime Analysis

A set of systematic, analytical processes directed at providing timely and pertinent information relative to crime patterns and trend correlations to assist the operational and administrative personnel in planning the deployment of resources for the prevention and suppression of criminal activities, aiding the investigative process, and increasing apprehensions and the clearance of cases. Within this context, Crime Analysis supports a number of department functions including patrol deployment, special operations, and tactical units, investigations, planning and research, crime prevention, and administrative services (budgeting and program planning). --Steven Gottlieb et al., 1994, "Crime Analysis: From First Report to Final Arrest."

TO: Office of the Chief of Police

FROM: Det. Sgt. Kurt Fasulo #63

SUBJECT: Crime Analysis Report January 2021

During the month of January 2021, the Guilford Police Department had the following ***Part 1*** *and selected* ***Part 2*** *Crimes reported: Reference Appendix A for further information. This information was compiled via the NEXGEN system utilizing a query of all Part 1 Crimes and select Part 2 crimes from the computer database. A full review of each queried case file report was completed.*

The Guilford Police Department investigated 540 cases for the month of January. This is a fifty-one percent (51%) decrease in calls from January 2020 (1093).

Burglary

There were three (3) reported burglaries during the month of January. Two burglaries were to commercial buildings and are connected to a series of burglaries throughout the state. Two suspects have been identified and arrest warrant applications are imminent. There was also one burglary to a residential property.

The number of burglaries increased when compared to January 2020 (2).

No graphic representation will be provided due to the minimal number of burglaries for the month of January.

Criminal Mischief

There were six (6) criminal mischief cases for the month of January. Four (4) of the cases involved damage to private property and the remaining two (2) public property. There were no arrests made for criminal mischief in the month of January. One of the cases was solved but did not result in arrest due to the complainant no longer wishing to pursue charges.

Five (5) of the incidents reflect the time the reports were filed and not the time at which the crime was committed. These were reported after the damage was observed and the exact time and date of the occurrences is unknown. No trend nor pattern was identified to warrant the development of a response plan.

The number of criminal mischief cases increased when compared with January 2020 (3).

Reference Appendix B for a graphic representation.

Larceny

There were fifteen (15) larceny cases reported during the month of January. One (1) of the cases was solved and an arrest was made. An arrest warrant is pending for an additional case.

The larceny types are as follows: Three (3) shoplifting, seven (7) thefts from motor vehicle, three (3) theft from residence, and two (2) general larceny.

For five (5) of these larceny cases the exact date and time that the larceny occurred has not been determined. Thus, the date and time shown in the related graph reflects only that of the date/time reported. A separate graph has been provided which depicts day and time the offense was completed, if known.

The number of larceny cases decreased from January 2020 (27).

The fraud cases for the month of January are as follows: four (4) General Fraud, six (6) Fraud via Internet, two (2) Check Forgeries, and two (2) Fraud – Identity Theft. These fraud incidents mostly were attempts to defraud victims of funds. In some cases, the involved complainants were reimbursed or did not experience any loss. In total there was $**12,392.00** in losses experienced from these incidents.

Reference Appendix C for a graphic representation.

Robbery

There was one (1) robbery case for the month of January. The case resulted in an arrest. There was no pattern nor trend identified and therefore no response plan was developed.

This was an increase when compared with January 2020 (0).

Larceny of MV

None reported. This is a decrease from the number reported in January of 2020 (1).

Aggravated Assault/Simple Assault

None reported. This is a decrease from January of 2020 (1).

Arson:

None reported. This remained consistent with January of 2020 (0).

Sexual Assault/ Sex Offense:

None reported. This is a decrease when compared with January 2020 (1).

Homicide

None reported. This remained consistent with January 2020 (0).

Criminal Activity Information and Intelligence

CTIC provided LEO intelligence during this month. The New England State Police Information Network also served as a source of intelligence as did the Law Enforcement Information Exchange (LInX). Guilford Police also monitors Crimedex Law Enforcement Portal for updated information on financial crime trends. Crime intelligence sharing is also monitored through the New Haven Police Department's SLACK channel as well as internally utilizing the Guilford PD SLACK channel. The Detective Unit continues to monitor social media and the anonymous tip line for gathering and evaluating criminal intelligence.

Intelligence meetings were held for the Middlesex County Detective Association and Shoreline Detectives. New Haven MDT meetings were held virtually in regard to ongoing criminal activity in all attending agencies' jurisdictions.

Respectfully submitted,

Det. Sgt. Kurt Fasulo
